ISSUE:

An ordinance updating the West Valley City sidewalk ordinance.

SYNOPSIS:

The City's current sidewalk ordinance does not accurately reflect contemporary uses of sidewalks.

BACKGROUND:

The City's current sidewalk ordinance contains many references to historical uses of sidewalk, including but not limited to horse carts and names of dated games, such as games of gall and quoits. In order to make the ordinance more understandable and to update the regulations to more accurately reflect current needs with respect to sidewalks the staff has updated the ordinance.

RECOMMENDATION:

City Staff recommends approval of the Resolution.
